Essay.

I think, that students should have longer summer holidays, that now. In this time students can relax and doing what they want. Their brains are redown-loading. If students ~~be~~ have summer holiday longer, ~~they~~. It will be good for their studying. They will move positive. Maybe, they will pass test better, because they will have a lot of days to learn something information for exam.

Students on their holiday can walk with friends, they can prefer some activities. For example, is play football, tennis, basketball, maybe is time in gym. I have some friends, who prefer go to the gym. In my opinion, if students have longer holidays, that now, they will love school more. They are tired after school and want only sleep. In summer holidays children ~~should~~ would sleep more, than at school time.

They can learn new language. It's my example, so In this summer I want to learn French. I think, It will be nice and good for my future life.

A lot of students are dissatisfied at autumn, when they should go to school. And me too. But I know, that I will meet my friends, I will learn a lot of new information.

In considered I will say, that students should have summer holiday longer. It's good for their mental health. ~~It~~ It will be so nice, if I relax more than three month. In this time, I will go to meet a surprise, maybe once. After that, I will go to the breakfast. Maybe, I will improve my health and skills in English and French. It will be the best time in the year.
